The Board of Directors
Lake Champlain-Lake George Regional
Development Corporation

Dear Board Members:

We have audited the financial statements of Lake Champlain-Lake George Regional Development Corporation (the RDC) for the year ended December 31, 2018, and have issued our report thereon dated June 26, 2019. Professional standards require that we provide you with information about our responsibilities under auditing standards generally accepted in the United States of America and Government Auditing Standards, as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our engagement letter dated January 18, 2019. Professional standards also require that we communicate to you the following information related to our audit.

Significant Accounting Policies

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by RDC are described in note 1 to the financial statements. For the year ended December 31, 2018, RDC adopted Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2016-14, “Not-for-Profit Entities (Topic 958) Presentation of Financial Statements of Not-for-Profit Entities,” as described in note 1(i). ASU 2016-14 contains several provisions that change the presentation of and disclosures within the financial statements of a not-for-profit entity. We noted no transactions entered into by RDC during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper period.

Accounting Estimates

Accounting estimates are an integral part of the financial statements prepared by management and are based on management’s knowledge and experience about past and current events and assumptions about future events. Certain accounting estimates are particularly sensitive because of their significance to the financial statements and because of the possibility that future events affecting them may differ significantly from those expected.

For the year ended December 31, 2018, we evaluated the key factors and assumptions used by management in determining that accounting estimates were reasonable in relation to the financial statements taken as a whole.

Significant Disclosures

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosures affecting the financial statements were the disclosures of related party transactions in note 5 and the economic conditions in note 8.

Difficulties Encountered in Performing the Audit

We encountered no difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. There were no material uncorrected misstatements detected as a result of our audit procedures.

Disagreements with Management

For purposes of this report, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditors' report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to RDC's financial statements or a determination of the type of auditors' opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to our appointment as RDC's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our appointment.
